

JOINT
PUBLIC NOTICE

CHARLESTON DISTRICT, CORPS OF ENGINEERS
69A Hagood Avenue
Charleston, South Carolina 29403-5107
and the
S.C. DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL
OFFICE OF OCEAN AND COASTAL RESOURCE MANAGEMENT
1362 McMillan Avenue, Suite 400
Charleston, South Carolina 29405

REGULATORY DIVISION

Refer to: P/N #SAC 2006-1322-1IW-C

7 JULY 2006

Pursuant to Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403), Sections 401 and 404 of the Clean Water Act (33 U.S.C. 1344), and the South Carolina Coastal Zone Management Act (48-39-10 et seq.) an application has been submitted to the Department of the Army and the S.C. Department of Health and Environmental Control by

PULTE HOMES, INC.
c/o SLIGH ENVIRONMENTAL CONSULTANTS, INC.
31 PARK OF COMMERCE WAY, SUITE 200B
SAVANNAH, GEORGIA 31405

for a permit to place fill material in, perform excavation in and perform land clearing in freshwater wetlands contiguous to waters of the

NEW RIVER

at locations on a 2,165.26 acre site located east of New River and north of Highway 141 in the Town of Hardeeville, Jasper County, South Carolina (Latitude 32.3369°, Longitude 80.9537°)

In order to give all interested parties an opportunity to express their views

NOTICE

is hereby given that written statements regarding the proposed work will be received by both of the above mentioned offices until

12 O'CLOCK NOON, MONDAY, 7 AUGUST 2006

from those interested in the activity and whose interests may be affected by the proposed work.

The proposed work consists of placing 101,301 cubic yards of fill material in 20.30 acres of wetlands (5.65 acres of jurisdictional wetlands and 14.65 acres of non-jurisdictional wetlands, including a 1.09 acre road crossing contingency), performing excavation in 3.0 acres of wetlands (0.73 in jurisdictional wetlands and 2.27 acres in non-jurisdictional wetlands) and performing landclearing in 2.49 acres of non-jurisdictional wetlands.

REGULATORY DIVISION

Refer to: P/N #SAC 2006-1322-1IW-C

7 JULY 2006

The applicant has obtained a Land Disturbance Permit from the South Carolina Department of Health and Environmental Control, Office of Ocean and Coastal Resource Management (SCDHEC, OCRM) to impact 4.24 acres of isolated non-jurisdictional wetland areas within this project site (OCRM Project No. Stormwater-27-03-08-01). Mitigation was required by SCDHEC, OCRM for this impact in the form of 49.78 acres of jurisdictional wetlands, 7.99 acres of non-jurisdictional wetlands and 9.48 acres of upland buffers. This preservation mitigation is not included in the calculations for this project. However, the 25% restoration credits remained for the land disturbance permit and are included as "Area 9" on the mitigation worksheets. The applicant is also proposing impacts to 0.63 acres of previously preserved jurisdictional wetlands and 0.02 acres of previously preserved non-jurisdictional wetlands shown as Areas 5 and 6 on the mitigation worksheets. Mitigation for project impacts will be provided by preserving 181.05 acres of jurisdictional and 39.73 acres of non-jurisdictional onsite wetland preservation with 89.66 acres of upland buffers. In addition, 106.8 mitigation credits will be purchased from an approved mitigation bank or the equivalent amount of restoration and/or enhancement acreage will be provided at an offsite location. The purpose of the project is to develop a master planned mixed use community with residential, commercial and recreational areas on a 2,165.26 acre tract. The development is proposed to be constructed in five phases and the applicant is requesting a 15 year permit.

NOTE: Plans depicting the work described in this notice are available and will be provided, upon receipt of a written request, to anyone that is interested in obtaining a copy of the plans for the specific project. The request must identify the project of interest by public notice number and a self-addressed stamped envelope must also be provided for mailing the drawings to you. Your request for drawings should be addressed to the

**U.S. Army Corps of Engineers
ATTN: REGULATORY DIVISION
69A Hagood Avenue
Charleston, South Carolina 29403-5107.**

The District Engineer has concluded that the discharges associated with this project, both direct and indirect, should be reviewed by the South Carolina Department of Health and Environmental Control in accordance with provisions of Section 401 of the Clean Water Act. As such, this notice constitutes a request, on behalf of the applicant, for certification that this project will comply with applicable effluent limitations and water quality standards. The work shown on this application must also be certified as consistent with applicable provisions the Coastal Zone Management Program (15 CFR 930). The District Engineer will not process this application to a conclusion until such certifications are received. The applicant is hereby advised that supplemental information may be required by the State to facilitate the review.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Implementation of the proposed project would impact 26.44 acres of estuarine substrates and emergent wetlands utilized by various life stages of species comprising the red drum, shrimp, and snapper-grouper management complexes. Our initial determination is that the proposed action would not have a substantial individual or cumulative adverse impact on EFH or fisheries managed by the South

REGULATORY DIVISION

Refer to: P/N #SAC 2006-1322-1IW-C

7 JULY 2006

Atlantic Fishery Management Council and the National Marine Fisheries Service (NMFS). Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the NMFS.

Pursuant to Section 7(c) of the Endangered Species Act of 1973 (as amended), the applicant has provided a protected species survey for the property associated with the activity described above. Based upon this report, the District Engineer has determined that the project is not likely to adversely affect any Federally endangered, threatened, or proposed species or result in the destruction or adverse modification of designated or proposed critical habitat. This public notice serves as a request for written concurrence from the U.S. Fish and Wildlife Service and/or the National Marine Fisheries Service on this determination. (see FWS Log No. 4-6-99-366)

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), this public notice also constitutes a request to Indian Tribes to notify the District Engineer of any historic properties of religious and cultural significance to them that may be affected by the proposed undertaking.

In accordance with the NHPA, the District Engineer has also consulted the latest published version of the National Register of Historic Places for the presence or absence of registered properties, or properties listed as being eligible for inclusion therein, and this worksite is not included as a registered property or property listed as being eligible for inclusion in the Register. To insure that other cultural resources that the District Engineer is not aware of are not overlooked, this public notice also serves as a request to the State Historic Preservation Office to provide any information it may have with regard to historic and cultural resources.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state, with particularity, the reasons for holding a public hearing.

The decision whether to issue a permit will be based on an evaluation of the probable impact including cumulative impacts of the activity on the public interest and will include application of the guidelines promulgated by the Administrator, Environmental Protection Agency (EPA), under authority of Section 404(b) of the Clean Water Act and, as appropriate, the criteria established under authority of Section 102 of the Marine Protection, Research and Sanctuaries Act of 1972, as amended. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the project must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the project will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production and, in general, the needs and welfare of the people. A permit will be granted unless the District Engineer determines that it would be contrary to the public interest. In cases of conflicting property rights, the Corps of Engineers cannot undertake to adjudicate rival claims.

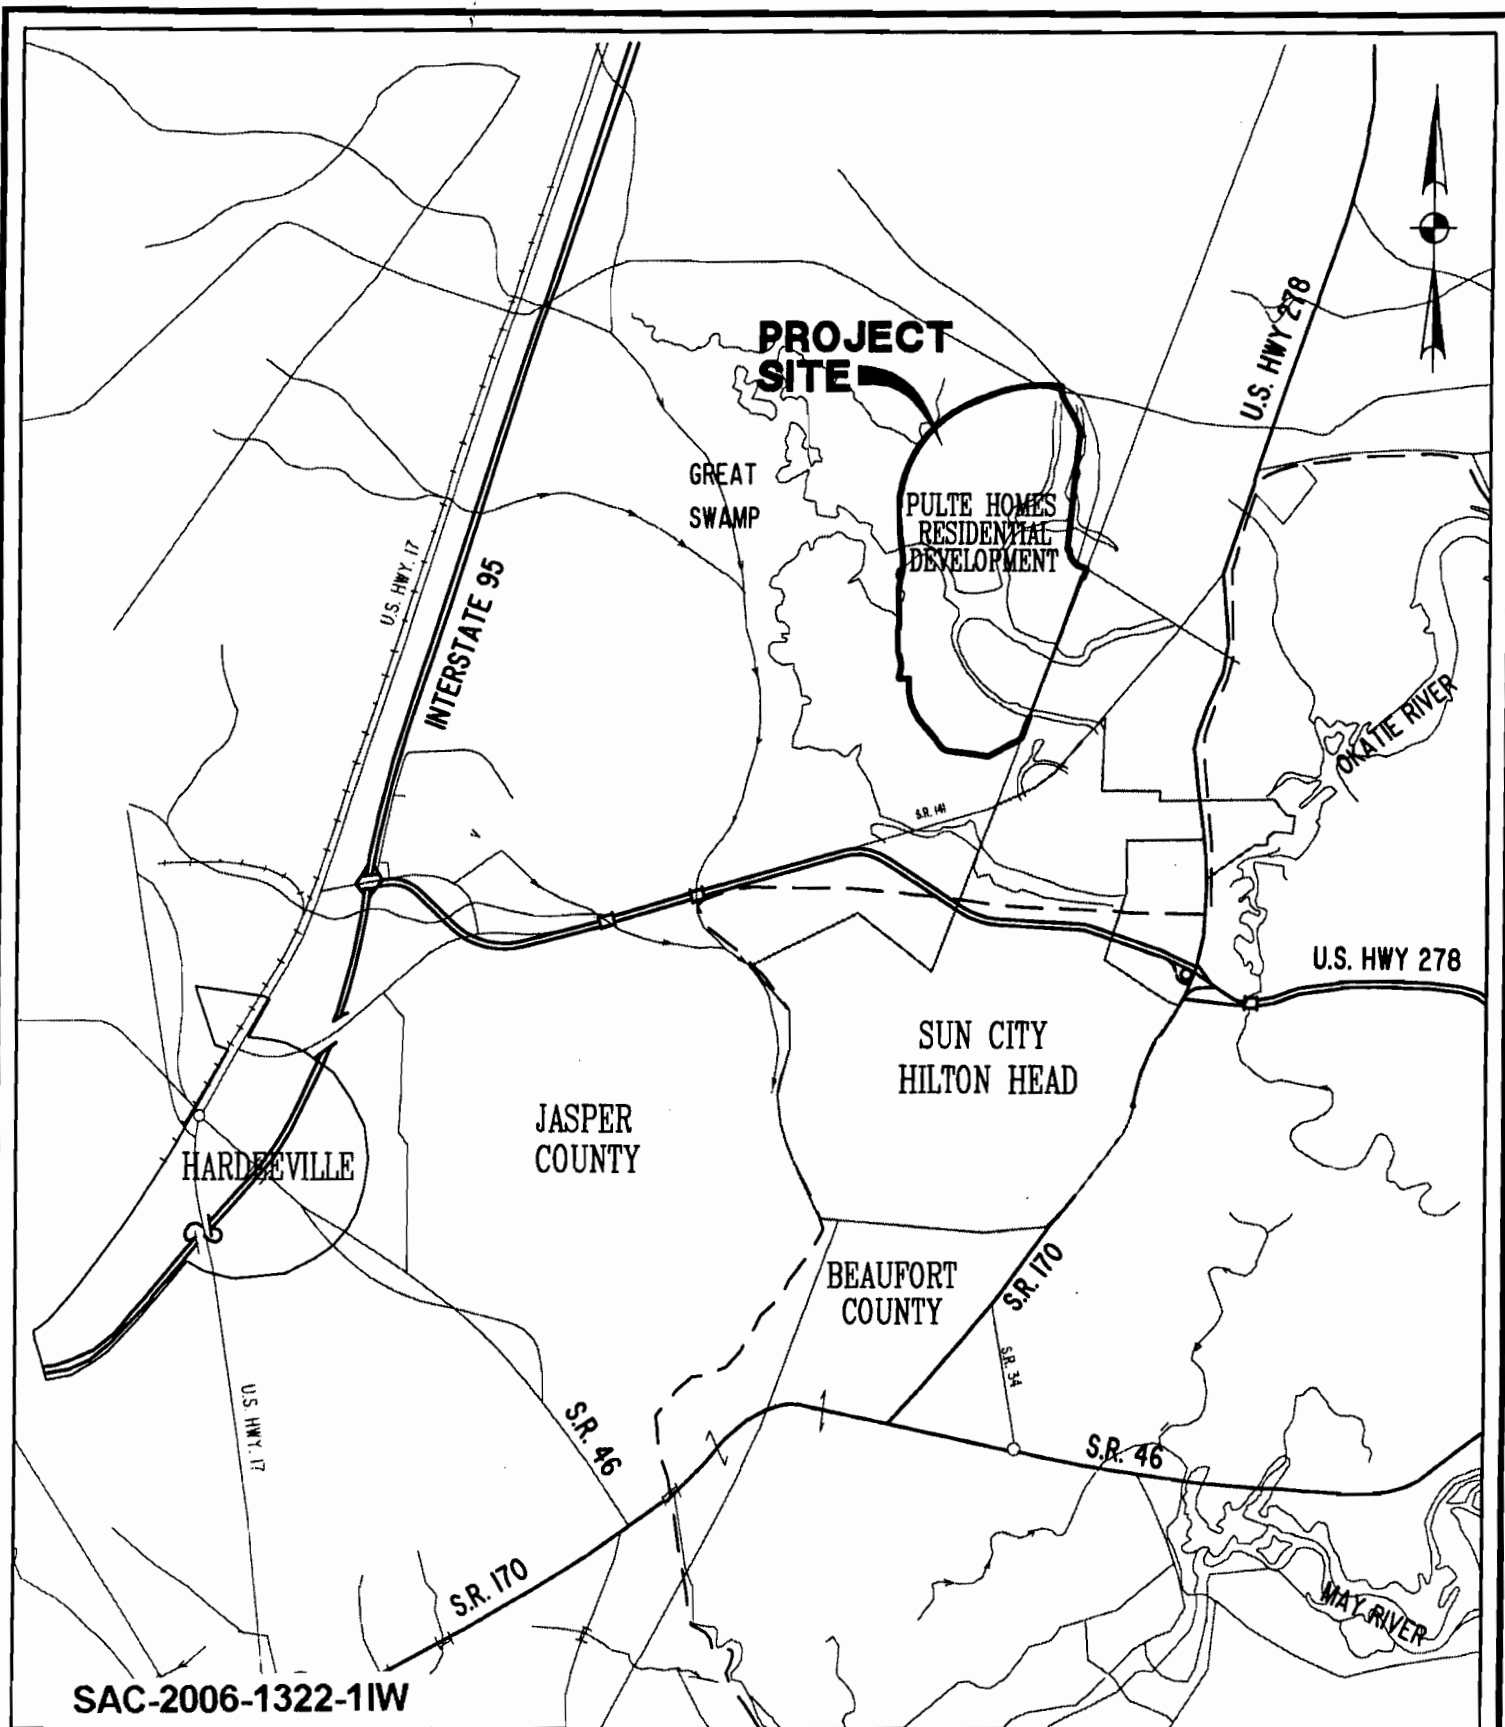

REGULATORY DIVISION

Refer to: P/N #SAC 2006-1322-1IW-C

7 JULY 2006

The Corps of Engineers is soliciting comments from the public; Federal, state, and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this project. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the activity.

If there are any questions concerning this public notice, please contact Debbie King at 843-329-8044 or toll free at 1-866-329-8187.
